Republic of the Philippines
Department of Science and Technology

Graduate Scholarship Program

Applicant Name: Juan Dela Cruz

Degree Program: MS in Computer Science

Institution: University of the Philippines Diliman

Short-Term Career Goals (1–3 years):

Upon completing my graduate degree, I plan to contribute to research in AI for education, join a public R&D institution, and support government projects aligned with Science for Change initiatives.

Medium-Term Career Goals (4–6 years):

I aim to pursue a leadership role in a research unit or academic institution and begin mentoring young scientists in technology development.

Long-Term Career Goals (7+ years):

I plan to lead national-level research projects, collaborate with international agencies, and advocate for data-driven policymaking in the science and education sectors.
